Average age of the vines: 25 years old. Soil: Calcaire sur Kimméridgien

Climate: After rather soft January, cold and dry February, the sweetness of March favors a resumption of the vineyard leading to predict an early vintage wine. But some spring frosts, on one very perturbed June and rainy July slowed down strongly this advance. August knew one week very strong hot season pulling a loss of additional harvest. Beautiful September allowed the grapes to obtain their maturity. The grape harvests finally took place in a normal period. The vintage 2012 distinguishes itself by a very whimsical weather report and a yield in the harvest relatively low with nevertheless a beautiful balance, of the delicacy and a beautiful concentration.
